

Nightbird
Written as a rite of hope
As it gets dark
The shift from light to dark takes hold
It feels quieter and lonelier
The anticipation of the subconscious space

Nightbird is the light song amidst the transition
The voice of a bird you cannot see
Singing joy and play in an all too serious world

This song incorporates the strings of harps
and angelic elements to embody
the frequency of our inspiration.

let our music heal the world

nightbird
