

SO THEN WHY DOES IT MATTER?!?!?!?!?!?

if computers are so great and ai is going to take over
why bother

because i say it matters.

because the reward is in the work

because if you stand for nothing you'll fall for anything

because when we lose connection to craft
we lose connection to our humanity

because in a world that rewards toughness and rapid output
softness and intentionality is radical

because it's cool to care

because choosing love in a world without loving conditions
is a form of rebellion
